

Instytut
Metali Nieżelaznych
Gliwice

Since 1952 Institute of Non-Ferrous Metals (IMN) in Gliwice has been the main research and development centre of Polish non-ferrous industry

• Cu

The offer:

- research and development works
- new technologies
- laboratory, pilot and technical scale research
- services of certified laboratories
- special products from non-ferrous metals

• Al

Services in the field of:

- processing of mineral resources and wastes disposal
- non-ferrous metals metallurgy
- hydrometallurgy
- pyrometallurgy
- environmental protection
- processing of metals and alloys
- materials science and engineering
- chemical power sources
- analytical chemistry

• Pb
